FIGHT HAS COME

TARGETS

IN the Name of Allah, the Compassionate, the Merciful

Praise be upon Allah who cherishes those who obey and support Him, and disgraces those who disobey and let Him down. He who supports the Mujahideen, cherishes the believers, disgraces the disbelievers and hypocrites and overpowers the religion deceivers

He who made pride and glory on the Mujahideen flags

Peace be upon the Prophet who was sent by Allah as a guide, mujahid, a bringer of Glad Tidings, and as a Warner

Here is the second issue of Nashir Media Foundation's electronic magazine. Few days before, the heroic epics have started in Mosul, the land of righteous. People of barriers [thoghour] are making a new history for Islam Nation. There, where the mujahideen turn over the eras of humiliation and disgrace lived by Muslims throughout ages to defend the Caliphate Structure which was established on a land watered by martyrs' blood

Armies of disbeliever nations from the east and west, holding the flag of Satan and using simple and deadly weapons have gathered on this land

They bombard from the sky, earth and the sea aiming at one goal of destroying the Islamic Caliphate

Their madness, panic and fear from a city consists of few thousand soldiers obviously shows that the war of Mosul is not a normal war or an easy confrontation. They knew in their believes that Islam will prevail and the jihad has started and will not stop until the promise of Allah be achieved

As for them, the battle of Mosul is [to be or not to be], but as for arrogance of the west this war is [we will be]. The enemies has more numbers, their weapons are the latest. These are their standards because

they believe in their powers but they did not know that there the One whose power is unbeatable

Here in this media edifice, as we look forward to support Mosul, we renew our pledge first to Allah and then to our Caliph and Caliphate. Our brothers in Europe. We look forward to your support, and every other country that contributes, even by wards, in attacking Mosul. We hope that you heal our chests through your deeds and actions to revenge their deed

However, we have dedicated this magazine issue to you in particular to know that we are looking forward to your support and respond to your brothers in Mosul

Know the Jihad is ongoing till the doomsday with or without us [If ye turn back [from the Path], He will substitute in your stead another people; then they would not be like you

Oh Lord! Allah! the Living, the Self-Subsisting, Eternal. We pray thee to grant us Martyrdom and go forward not retreating

We pray thee to send ye blessings on the Prophet and salute him, his family and all his companions with all respect

FIGHT HAS COME

Fighting isn't restricted to the bullets, bombs and explosive devices. Our enemy nowadays warships the money and the dollar and there is no connection among his members but interests

Our enemies are led by a masonic platoon that turn them into animals by the name of freedom. Immortality and sensuality have spread among them. They They have made Islam their first enemy by an order of Satan. In a Believer they respect not the ties either of kinship or of covenant. They are followed by a group of hypocrites who are attributed to Islam. They have satisfied them with their words but hated them deep in their hearts. They are not trust worthy

A group of truthful Arab Muslims who are steady on the right have appeared to announce the war against those enemies. Their lands are the battlefields. Those wars and battles have started from a long time and did not stop

A group of foreigners were guided to Islam by Allah. He has chosen them among mankind. They were free and did not accept injustice an humiliation Their hearts were empty. They searched and found Islam which filled their hearts with faith. They supported their brothers. Nothing is stronger than the ties of faith brotherhood

Arab muslims bearded the heaviest burden of killing and blood. On their lands, battles were running. They were supported by those foreigners who migrated to the Arab land and defeated throughout history, the religion of Allah, the Islam. They sacrificed their lives for this

Ye Caliphate Muslim foreign Supporters! It is a grace from Allah who made you live among our enemies who live peacefully in their countries, while they turn our country into destruction

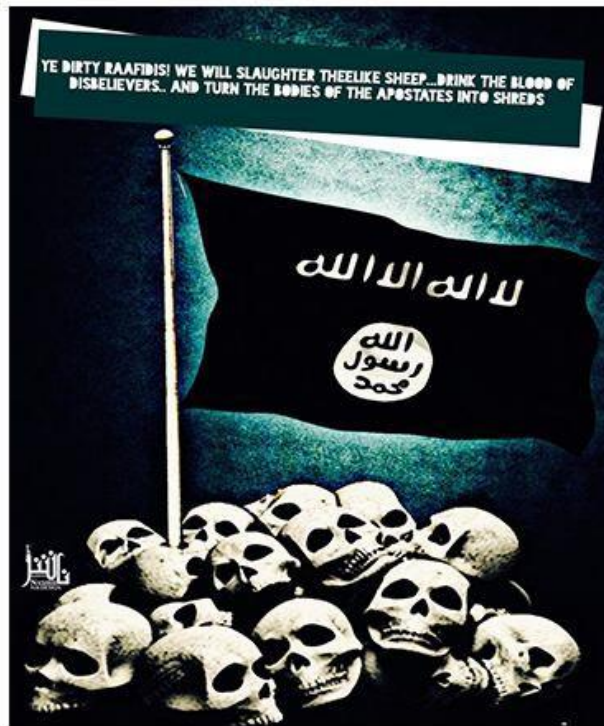

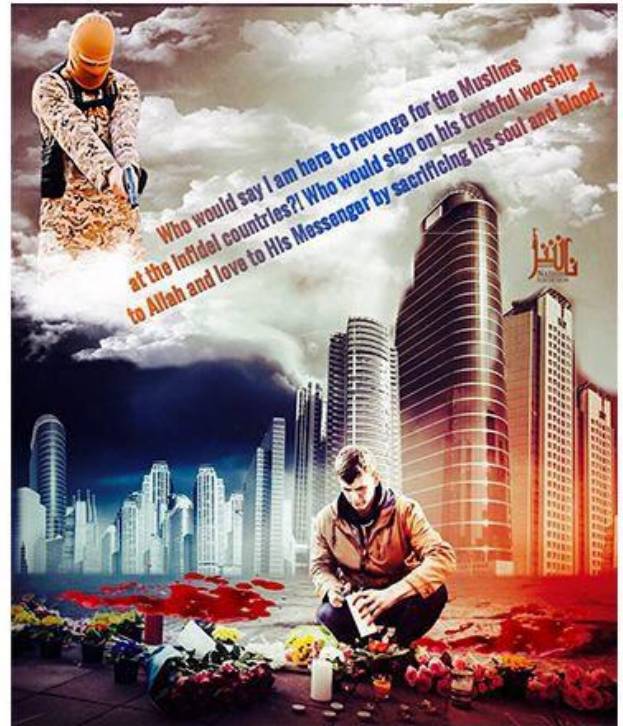

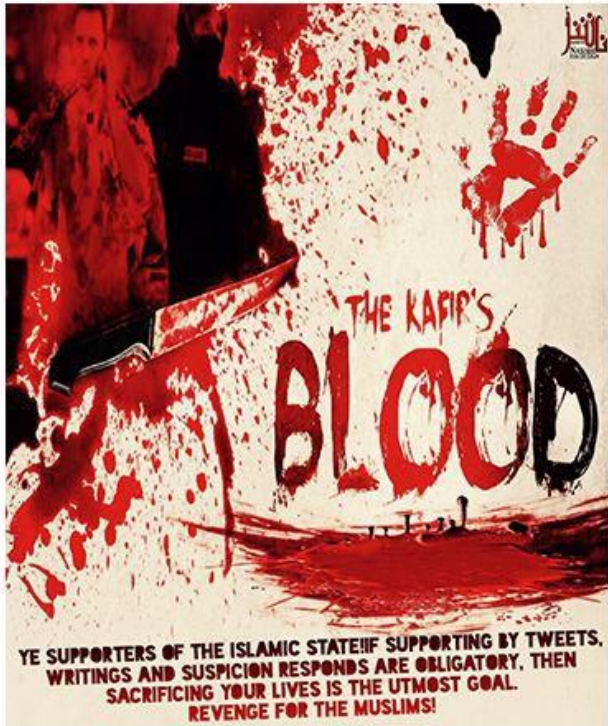

We are your brothers. Every soldier fights on the Caliphate land wishes to be in your place. We can cut the tail of the snake, but it will sooner grow again. But you have its head

We call for you to support your State, the Islamic State. Your brothers need your expertise which you have learned in the west countries to fight the disbelievers. We need you in the media and techniques. .Our war is informational and you are professionals Fighting now is not restricted to bullets and bombs. Wards can do much and might be stronger than a bomb if we put them in their places. Those wards could awake many peoples and make thousands to choose Islam to fill the emptiness of their lives rather than desires and lusts

Our Muslim brothers in Europe, America and the world, talk to your peoples through their technologies and defend your Islamic State Do whatever you can do to defend your State. Do not stand useless and defend your religion

Now, it is time for fighting. The land has turned into battlefields. Islam will be victorious with or without us. We will pass away

So, be brave. Islam Giant has already awake and the Antichrist will sooner appear

One of the Sunan of Allah in his creation that the world gather to direct its weapon towards Islam and muslims attempting to put off the light of Allah which lightens in the hearts of monotheists

Enemies have broke out an informational war and spent billions ti prevent people from the path of right

Their satellite channels, newspapers and magazines which are full of lies, were useless

So, they started to militarily fight them to kill anyone who takes this path

They agreed upon attacking one of cities that lies under control of the Islamic State. This time, Mosul was their target and mobilization. They wants to destroy it but they can not. Caliphate soldiers have strong determinations. They are real men

But the resistance of brave men does not put the duty of Islamic State supporters everywhere

O supporters especially in Europe, your brothers in Mosul call for you. So support them
Prove your brotherhood and show the enemy that you are like a one body which suffers if any organ suffers

Brave Mosul is bleeding. You should stop its bleeding by carrying out exhaustion operations of the enemy's powers and blood

To busy the enemy at their lands is an active participation in the battle of the Right against Wrong and a mitigation for your brothers

Cut any hand in the disbelievers' countries that hurt our brothers in Mosul and cut their heads by your knives, let us hear your guns blasting their heads. Send them to the hell groups after another by burning, poisoning and smashing

We want heroic operations that make our enemy cries for ever

We want operations that teats off the hearts of our enemy for panic

O Caliphate supporters! Now it is the time to prove truthful support. The honest will hold his soul on his hand and sell it to Allah revenging for the blood and honor of muslims and Allah will show the lier

When the dogs show their canines to tear the pure bodies
at Mosul, it would be obligatory for those sit still from jihad,
like the bad scholars, to hurry up for fighting. They know
very well that fighting for Mosul is the right but they hide it.
They should have at least frankly say it, kill those dogs to
defend your brothers

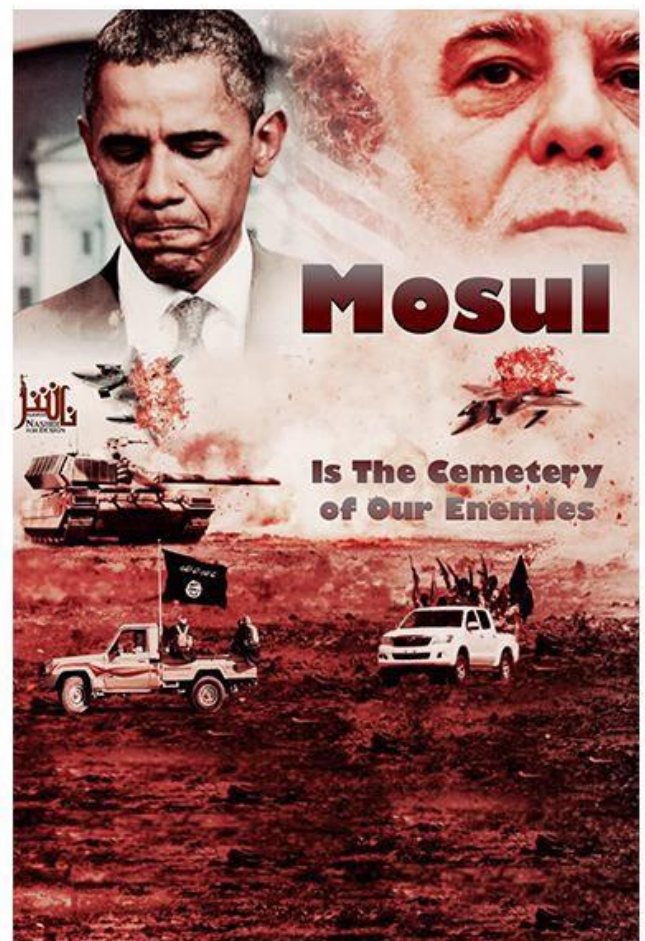

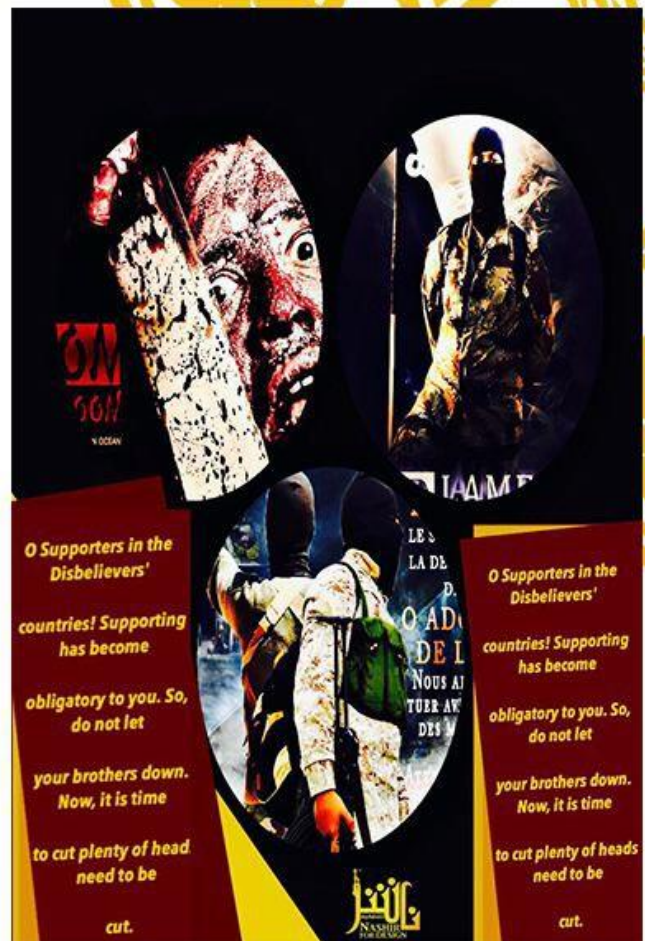

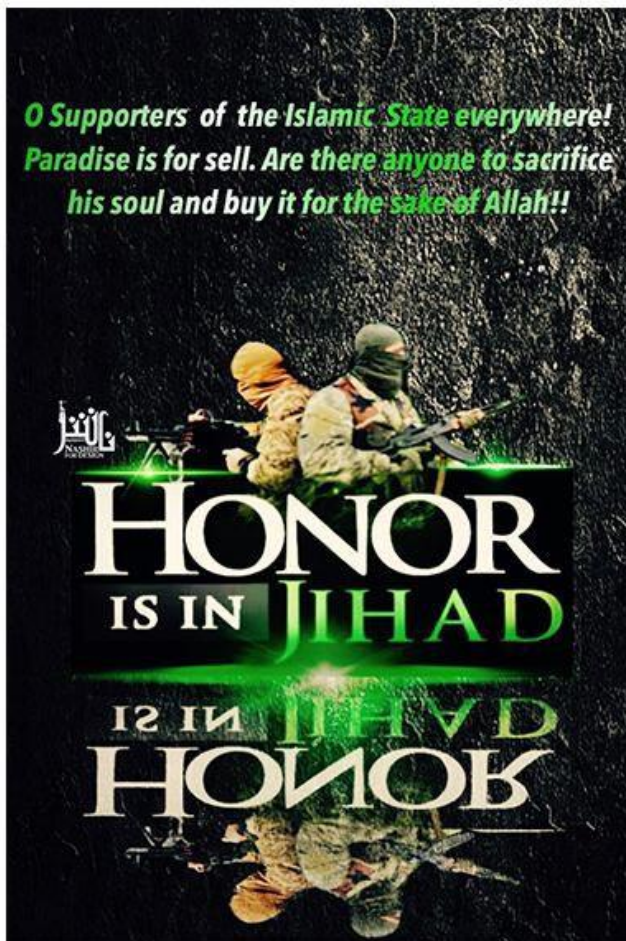

The real support should be on the ground reality not only by
hashtags and tweets or just preparing media campaigns
All of us should tell the enemy that the grandsons of Proph-
et Muhammad, peace be upon him, are still following his
path until they reach the Holy Basin, Inshallah

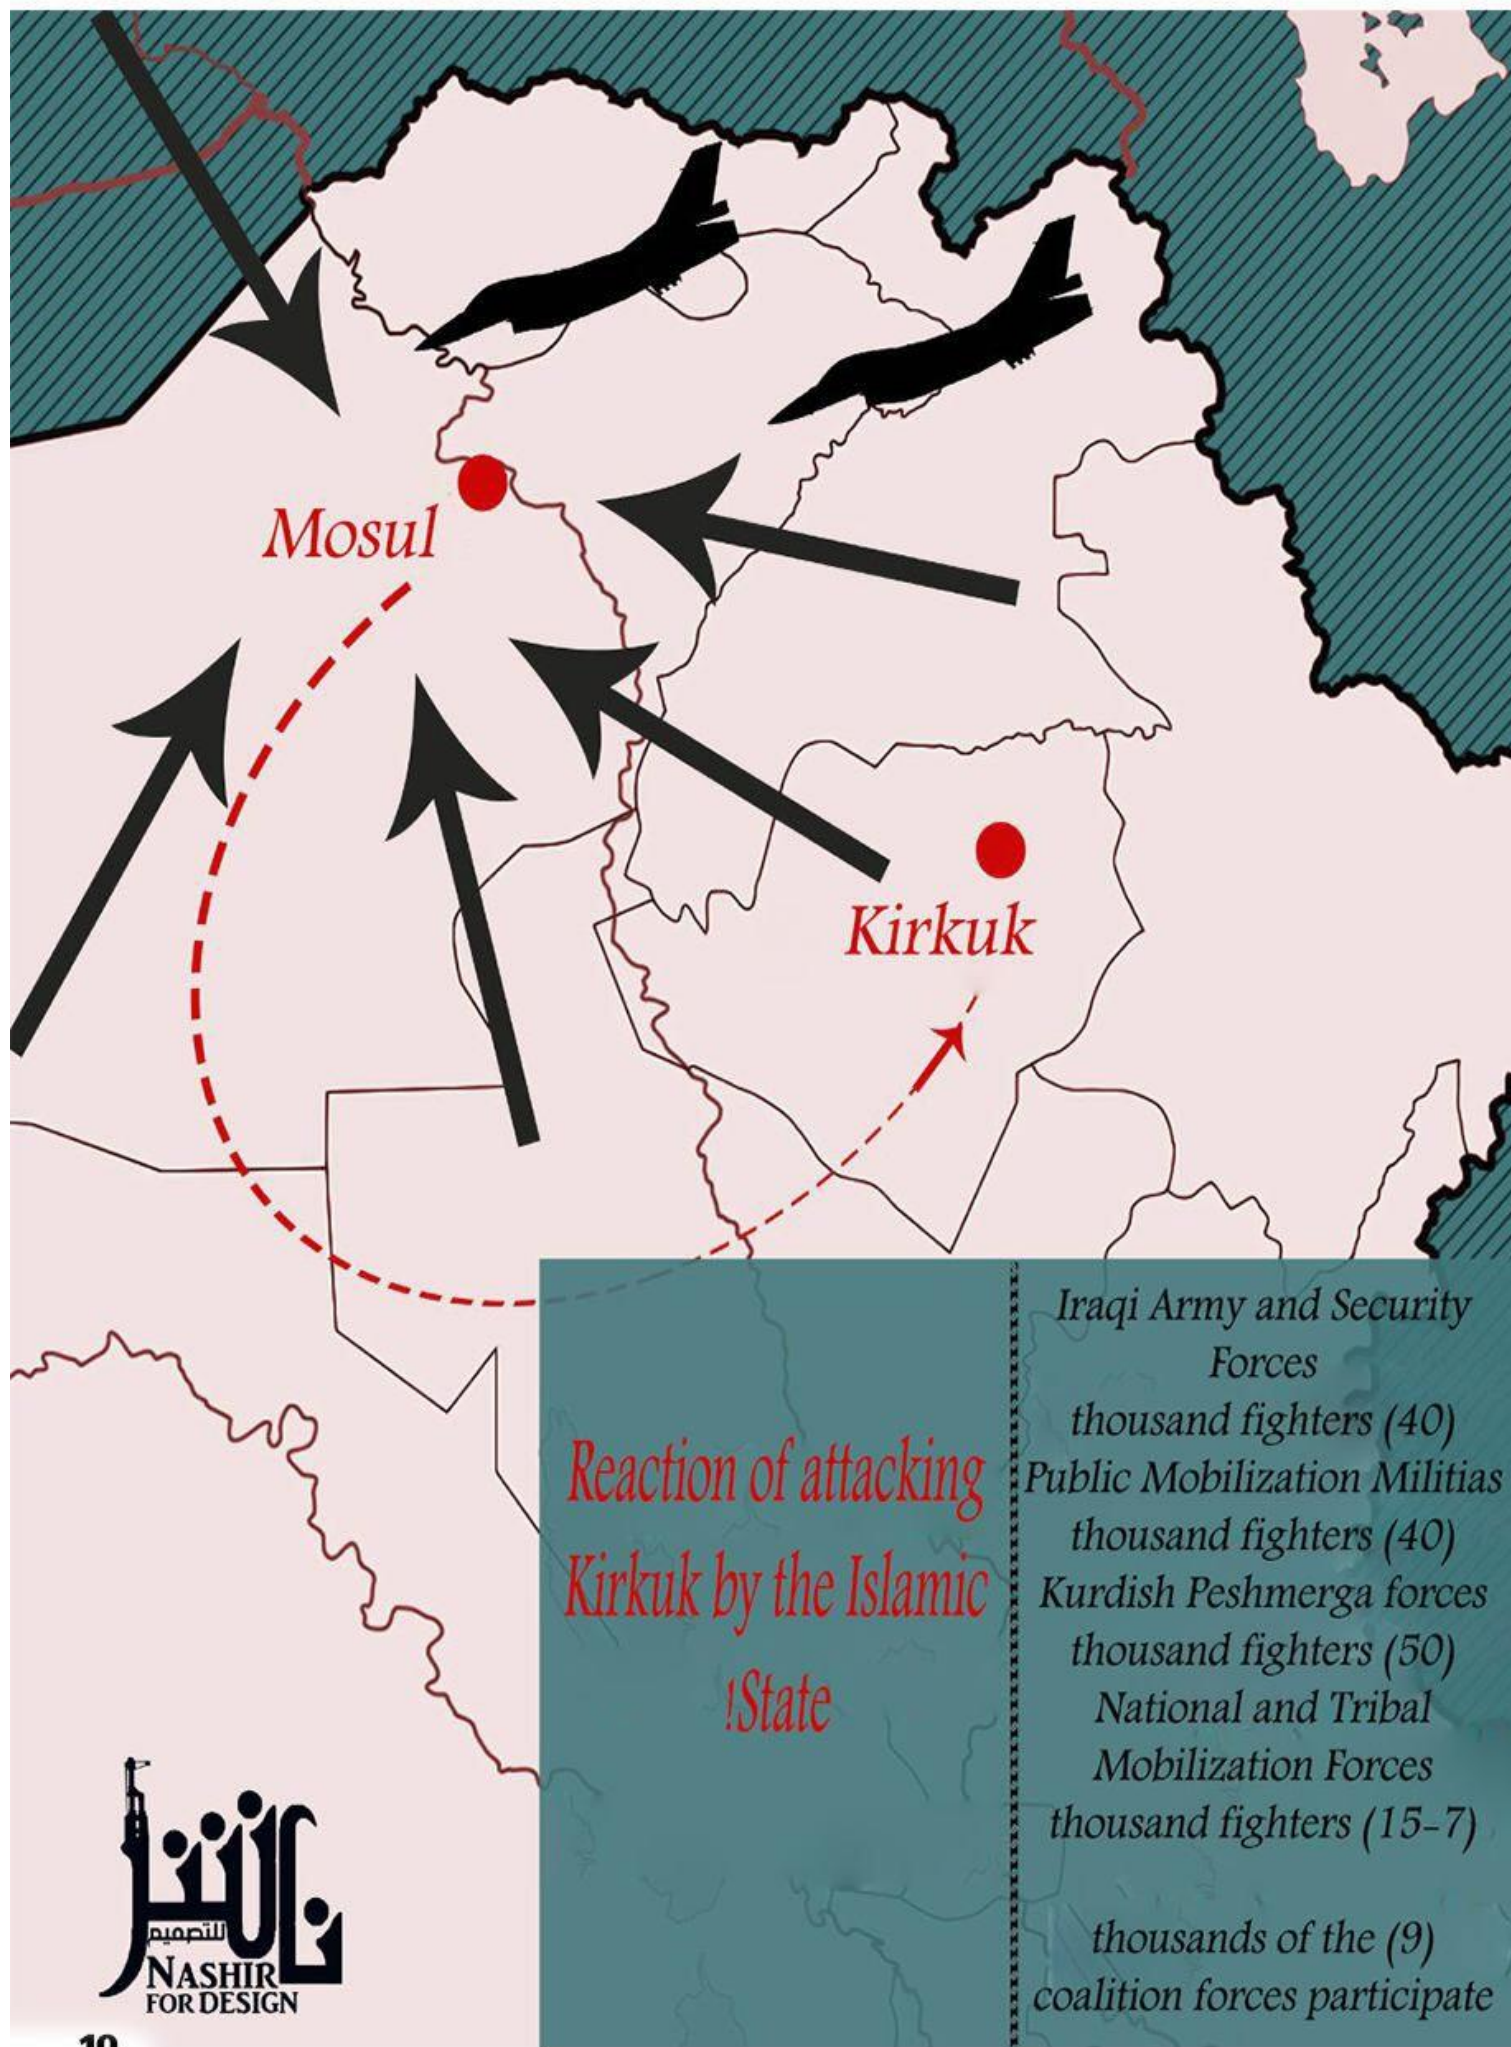

We should tell our enemies about the muslim's pride as he
holds faith in his heart. He never accepts the injustice of
any kind

We will prove this by true actions not by mere fancy words.
We don't invade by active hashtags, as bad scholars do.
They pretend to support the underdogs in social media, but
they are in fact pushing the enemies towards them and
bless their operations

Ye monotheists in Europe and elsewhere! The real support
is only by shedding the blood and sacrificing
So, shake the world by your operations, and plant panic in
their lands to harvest humiliation for them
Today the world only respects those having heavy feet. Let
the world know that every action has a stronger reaction.
Do not let those dogs go to your brothers from your side.
Cut the roads, transfer the battles at their lands and busy
them by themselves of the monotheists

Allah is the greatest and the pride is for Allah, his Messen-
ger and the believers

Battle of Mosul

.. Where to?

Everyone acknowledges that the resolution of the battle of Mosul in favor of Iran and America and the satanic alliance is not so easy that it is possible and imaginable for several reasons most importantly, we now turn briefly

Popular babysitter Islamic state strong and durable and is more powerful than its predecessors in Ramadi and Fallujah, which Tajan Basahoat (traitors

Vast area of desert land connected with Syria, which enables the state of fighters maneuver well

To gain access to the connector must be a large number of villages with a population exceeded the hundreds, and each village, as we saw at the beginning of the battle of the attackers need to provide and heavy losses on this Stbad forces before reaching the heart of Mosul

Well done the country's leadership to form a strong defense and solid lines within the villages and towns around Mosul, which will drain the enemy and inflict heavy losses

Who will make the Aalmanoah Advanced Denial battles used by the leadership of the Islamic State of any fighter or an officer of the enemy to think a thousand times progress towards Mosul and find it on the edge horrors How Bangaha

Terrifying and deadly weapon, which is owned by the state and the martyrs of this weapon knows America and Iran's leaders that it is not niyyah military confrontation and is a weapon would be influential to a large degree in the course of the battle

Stun attacks deep into enemy territory is also a weapon used by the state and may we saw in Sinjar and Sharqat and a number of other sites and is will inevitably affect the course of the battle negatively on the enemy so that his plans already drawn fails and imposes upon the establishment of alternative plans will not be easy under the flexible state plans to draw the details carefully

There is an important weapon in the battle, and that is the enemy consists of a coalition of Kurds with Safavid army with militia Shiite crowd with the Awakening and the so-called crowd clan in addition to the fighters, the Iranians and the Americans and the Europeans and even the Turks, and this crowd is framed and is organized in a single army, unlike Islamic State forces completely and this is what can be used by the state in the field as a weapon distracting the enemy (will explain how leadership is learning how to use a weapon of differentiation among the ranks of (the enemy

In any case, should not be tolerated never in battle in an organized and planned, the enemy has a very high combat capabilities already supported by major countries like America, Canada, Germany, France, Belgium, Britain, Iran and conspiracy Arab states such as Saudi Arabia and the United Arab Emirates and Jordan

Vtaadad participants of the enemy in the battle swings between 100 thousand and 140 thousand fighters, backed by the Arab International Coalition aircraft and a joint operations room between all of them in exchange for a few thousand of the Mujahideen do not have the weapons and materiel little, but they have faith in God, strong solid and this weapon enough to be motivation and incentive to fight and fight all these and progress towards victory with God's help

Of course the battle of Mosul is not like its predecessors in Ramadi and Fallujah and Tikrit battle they can say they battle the

interests of regional and international rather than local interests of the following :considerations

Turkey has special considerations for them near Mosul and oil supplies from the Kurdish areas need access to Europe

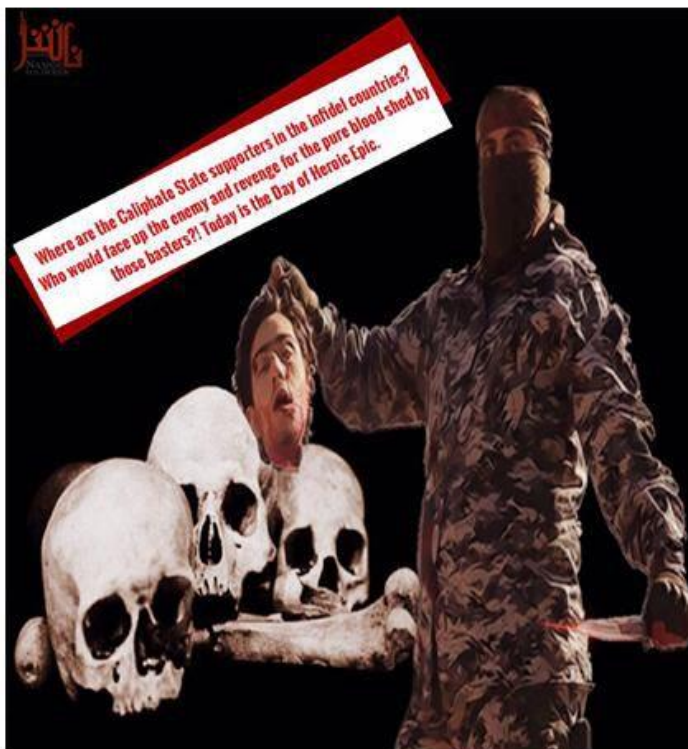

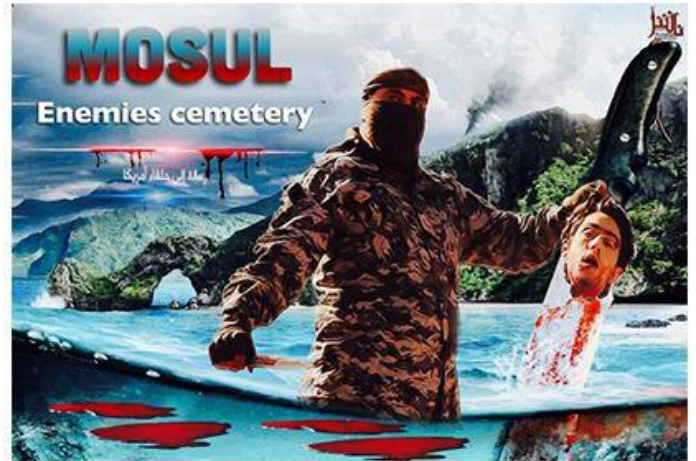

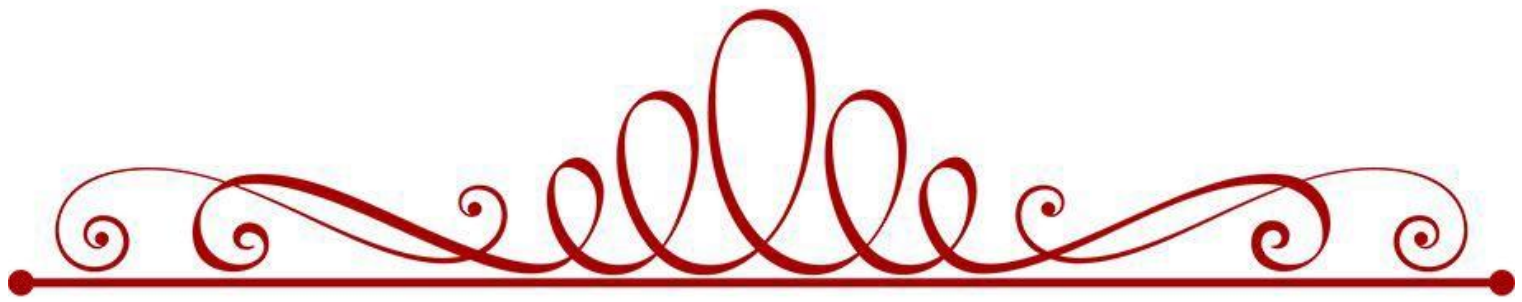

Iran has full Iraqi territory and is a - revenge of Old Mosul, specifically due to the presence of the clash system officers who Ozloha in the Iran-Iraq war within the city ambitions

US and European countries want to get rid - of the Islamic state as a state can not be allowed as a red line doing decree by the Masons and the World Zionist

As for the Arab countries, chiefly Saudi - Arabia therefore considers that the disposal of the Islamic state's arch-enemy in Iraq may be secured to the survival of its last years

As for the Isla

We call you for Revenge and War

Prophet Muhammad (peace be upon him) said: (If you were called for fight, then go forth

We call you for revenge and war. Ye monotheists, raise the banner

Praise be to Allah, Lord of the world. Peace be upon he who was sent by sword as mercy to mankind

Allah said: (but if they seek help from you in the matter of religion then it is your duty to help (them) except against a folk between whom and you there is a treaty. Allah is (Seer of what ye do

Bukhari and Muslim reported by Abdullah bin Abbas who said: Prophet Muhammad said: (No migration after the fateh (conquest) but jihad and intention. And if you (were called for fight, then go forth This hadith means that if the Imam assigned someone for jihad, this would be obligatory

Our brothers in the countries of Europe, the mujahideen have assigned a Caliph, raised the Tawheed banner and establish the Caliphate. Today they are fighting all the nations to make the whole religion (Addin) is for Allah

To make the Muslim a master and is respected with high dignity. No hand of a disbeliever dares to harm him or else it will be cut

When the jihad started in Iraq, America was alerted with its supporters and agents from the east and west to put down the spark of Jihad

Ye our brothers, the Lone Wolves! We call you for terrifying the Cross Worshipers. Blow up the earth beneath them. Their leaders send their jets every day to kill the muslims and destroy their home in Iraq and Syria

So, what will you do? You are the spearhead. You are their panic and terror Their airplanes do not distinguish between a man or a woman, a child or an elder Kill them as they kill us. Do not have mercy on them because they are all the same If they condemn what happen to the muslims, they will object for their leaders and ask them to stop the bombardment

It is the flame of war. It is a relentless war. The war of all Muslims against the nations of disbelievers

Ameerul Munieen, Abu Bakr El-Baghdadi said

Ye Muslims! I call you all. Today, it is no longer a mere] crusader's campaign, but it is a war between all Kufr nations against Islam

It hasn't ever happened in the history of our nation that the whole world gathers against us as today

Every muslim is concerned to jihad for the sake of Allah

If he obeys, he will be rewarded, and if he disobeys, he will be punished and discontented by Allah

Every muslim has to defend the religion [Addin] of Allah, His Sharia and the weak people

Ye Muslims everywhere! Go forth and be sure of the victory of the Lord

Allah said: [[13] Of a truth ye are stronger [than they] because of the terror in their hearts, [sent] by Allah. This is because they are men devoid of understanding

Ye Monotheists! The Imam of Muslims has called for you. So, you have no excuse

Today you see the legions of Cross Worshipers and their followers at the fences of Mosul to put down the light of Allah and kill its people

Show them that the State of Islam is not Limited to one land. We fight you in the whole world. Its supporters are thirsty to drink the blood of those standing before their State

We know that some of you were unable to come for fight. If you seek fighting for Allah, go forth in their homes and heal the chests of the mujahideen

We remind you with the Prophet' quote: [Jihad and Intention]. So renew your intention, be truthful with Allah and trust in him for He will not let you down

Bless those who terrify the Cross Worshipers at their homes

We pray Our Lord, AlMighty, to enable you and heal .the chests of faithful men

The close of our cry will be: "Praise be to Allah, the Cherisher and Sustainer of the worlds
